
APRIL 9 ACHIEVEMENT COMPACT PUBLIC FORUM ANNOUNCEMENT

**Crook County School District invites you to an
Achievement Compact Public Forum on
Tuesday, April 9, from 6:00-8:00 p.m. at the
Crook County School District Administration office at
471 NE Ochoco Plaza Dr. to
learn about Achievement Compacts,
review the Crook County Achievement Compact and to provide input.**

The Oregon Education Investment Board (OEIB) was formed to create and facilitate the implementation of Achievement Compacts in all Oregon School Districts.

Achievement compacts are documents designed to set targets for defined outcome measures that are indicative of student success. As such, the compacts are intended to connect a district's plan for student achievement to the allocation of resources needed to accomplish its plan. Also, each school district Board is required to enter into an agreement with OEIB.

These agreements provide the opportunity to:

- Align all sectors of our education system toward achievement of the 40/40/20 Goal and college and career readiness;
- Focus and inform state investment and local budget and program decisions to achieve these outcomes;
- Spotlight best practices and promote collaboration, so that successful districts, colleges and universities can share their strategies with those that can benefit from additional guidance and support; and,
- In K-12 districts, replace provisions of the No Child Left Behind Act with a more supportive and flexible accountability system.

Each year, Crook County School District is required to create and revise student achievement goals, develop a plan to reach goals and to engage the community for input. To meet this requirement we have scheduled the Public Forum referenced above. You are welcome to come and review the Achievement Compact, ask questions and provide input.
