Ag Facts

The pumpkin is a fruit, not a vegetable, since it has seeds. If you put a pumpkin in water, it will float. Canned pumpkin is usually found in the baking aisle on the bottom shelf, not with the vegetables.

Brought to you by Ag in the Classroom, Mrs. Griffin

Picture Retakes will be Wednesday, November 13th

If you did not purchase photos earlier and would like to, you can have your child's photo taken on November 13th.

If you were not satisfied with your child's photos, just return the picture packet and a new photo will be taken and the packet replaced. Picture packets will be back before Winter Break. Picture packet envelopes are available at the office.
