SCHOOL BUS SCHEDULING AND ROUTING

The district Transportation Supervisor will determine school bus routes and stops and shall communicate this information to the public prior to the beginning of the school year based upon efficiency, safety, Board policy and applicable state and federal laws and regulations.

Buses operated by and for the district shall travel only on roads that are safe for the vehicle being used and are maintained by the county on a year-round basis. Determination as to suitability of a road for school bus use shall be made by the Transportation Supervisor. Such determination may be appealed to the Board.

The Transportation Supervisor shall:

1. Annually review and assess school bus routes, stops, and loading zones for safety, changing student population, and supervision of students;

2. Advise parents of any changes in transportation policy affecting their student as early as possible and be responsive to parent calls for assistance in seeking alternatives to busing; and

3. Work with cities, the county, and other appropriate governmental agencies on a continuing basis to inform them of transportation problems.

END OF POLICY
