

Please log into <https://ccsdvpn.hdesd.org> with your computer name and password and install the new client.

### GlobalProtect Portal

Name

Password

You will be asked to which version of the Global Protect agent you want to download (see the below picture). In most cases you will select the Download Windows 32 bit Global Protect agent. If you have any questions, please contact your District Support staff.

#### Palo Alto Networks - GlobalProtect Portal

[Download Windows 32 bit GlobalProtect agent](#)

[Download Windows 64 bit GlobalProtect agent](#)

[Download Mac 32/64 bit GlobalProtect agent](#)

**Windows 32 bit OS needs to download and install Windows 32 bit GlobalProtect agent.**

**Windows 64 bit OS needs to download and install Windows 64 bit GlobalProtect agent.**

**Mac OS needs to download and install Mac 32/64 bit GlobalProtect agent.**

Once you have the Global Protect agent installing it will ask you if you want to uninstall the sslvpn client. Leave it checked and select next. Once the agent is installed enter the info from the below picture with your user name and password. Insert the [ccsdvpn.hdesd.org](https://ccsdvpn.hdesd.org) into the Portal: field. Hit apply and say ok to next dialog box. At this point click on file and select connect to connect the to the VPN. Once it says connected you can close the window and it will be in the system tray.
