

## Make-Up of Time Lost Due to Inclement Weather

**Friday, February 17, 2017** will become a day that students attend school. It was originally scheduled as a Staff Development Day.

**Friday, March 10, 2017** will become a day that students attend school. It was originally scheduled as a Staff Development Day.

**Wednesday & Thursday, April 12 and 13, 2017** will become a day that students attend school.

These two days were originally scheduled as Conference Days. Conferences will be held during the evening of April 13<sup>th</sup> and the morning of April 14, 2017. **Teachers will work with any parent that wants to conference, but cannot make regularly scheduled conference times. A time that is mutually beneficial to both parents and teachers is the goal for these conferences.**

Keeping children safe and providing the best possible education is our primary mission at Crook County School District. Thank you for your flexibility regarding the district calendar. Should the district suffer the loss of additional instructional days for any reason, we will quickly communicate any further changes to the calendar as soon as possible.
