Course Description: ___ In this course, we will examine how music is used to convey information, influence emotion and enhance the film experience. We will discuss tools used and watch films to see examples of a wide variety of techniques. Students will demonstrate their understanding through assignments, written tests and projects. The films watched will be PG and PG-13 movies and sometimes include material not suitable for young children. A parent or student can opt out of any movie they find objectionable and an alternative assignment will be provided. _____

Materials:

There is a list of films on the back that we will select from, along with short clips from TV, documentaries, youtube.

Notification of the Right to Object to the Use of Materials

Any resident of the district may raise objection to instructional materials used in the district's educational program despite the fact that the individuals selecting such materials were duly qualified to make the selection and followed the proper procedure and observed the criteria for selecting such material.

The first step in expressing objection is consultation with the classroom teacher or library staff and providing a brief written complaint. The staff member receiving a complaint regarding instructional materials shall try to resolve the issue informally through the discussion of the original assignment or the opportunity for an alternative assignment.

If not satisfied with the initial explanation or an alternative assignment, the person raising the questions will meet with a building administrator who, if unable to resolve the complaint, will provide a Request for Reconsideration form which will be given to the superintendent for action.
