

Crook County School District

where students dream, learn, & succeed

March 17th, 2020

CCSD Families,

This evening, Governor Kate Brown extended school closures in Oregon until April 28th to help slow the spread of COVID-19. We understand this is a difficult and stressful time for many of our families as we walk through this together.

Rest assured that your CCSD leadership team and principals are working around the clock to develop a comprehensive program that will allow students and families to continue their educational experience throughout the closure. Families will be able to access our “Learning from Home” options both digitally as well as through paper packets if needed. Our Technology Department is currently exploring different options on how to best equip our students and families with the technology that students may need to continue their learning. Specific details regarding this program will be communicated in the coming days.

The daily meals program will now continue through the end of April as well. Two meals per day (breakfast and lunch) will be provided Monday through Friday. For information on locations and meal pick-up times, please visit the CCSD Facebook Page or the district website at www.crookcounty.k12.or.us.

We will soon launch a new “helpline” for parents and families. This helpline will ensure that our families can get connected to the timely and necessary support that they may need to continue their education. A dedicated webpage is also being designed that will house all information regarding our “Learning from Home” program. These resources will continue to be developed over the coming days and will be ready for the week after spring break.

Information is constantly evolving and we will do our best to keep our families updated. Thank you for your continued patience and understanding.

Sincerely,

Dr. Sara Johnson, Superintendent
